

Important Safety Warning

Product Recall

Reference no. 60027 – Remote Controlled Socket Set

We have been notified by our supplier (SMJ Electrical) of a safety issue with this product and the safety of customers is very important to us.

The product can overheat when overloaded causing the casing to melt. This could lead to a fire or lead to live components to be exposed.

These were last sold in 2008.

We would advise customers to unplug and stop using these products immediately and return them to the place they were purchased for a refund.

Rolson Tools Ltd would like to apologise for any inconvenience caused. No other Rolson products are affected.
